Professional Summary

Full Stack Developer with strong expertise in React.js, Next.js, and scalable backend systems. Experienced in building real-time web applications and solving 1300+ Data Structures and Algorithms problems. Passionate about designing efficient systems, optimizing performance, and writing clean, maintainable code.

Projects

Resume Analyzer | Next.js, Firebase Realtime Database, Firebase Authentication

- Built an AI-driven resume analysis platform evaluating resumes based on formatting, keyword relevance, ATS score, and skill coverage.
- Implemented resume parsing pipeline to extract text from PDF/DOCX files and generate structured insights.
- Developed scoring system to assess resume strength, identify technical and soft skills, and match against job requirements.
- Designed personalized learning roadmap generation for missing skills based on target job roles.

QuickHire | React, Spring Boot, PostgreSQL, Firebase Authentication

- Built a scalable labour management platform enabling contractor-worker job allocation, tracking, and feedback-based rating.
- Implemented role-based access control, real-time updates, and WebSocket-based chat for seamless communication.
- Developed internationalization with dynamic language switching and user preference handling.
- Integrated Firebase Authentication and Cloudinary for secure access and media management.

SplitGrow Application | React Native, Next.js, Firebase, SQLite, Cloudinary

- Built a cross-platform expense management application supporting multi-group expense tracking and settlement.
- Developed backend APIs using Next.js for expense processing, calculations, and data synchronization.
- Implemented Firebase Authentication and FCM-based notifications for real-time expense updates across iOS and Android.
- Integrated SQLite for local storage and Firebase Realtime Database for cloud synchronization.

Technical Skills

- **Languages:** C, C++, Java, Python, JavaScript, SQL
- **Frontend:** React.js, Next.js, HTML, CSS, Tailwind CSS
- **Backend:** Node.js, Express.js, Spring Boot, Next.js API Routes
- **AI/ML:** NumPy, Pandas, Scikit-learn, TensorFlow, Keras
- **Databases:** MongoDB, MySQL, PostgreSQL, Firebase
- **Tools:** Git, GitHub, VS Code, Docker, Postman, Jupyter Notebook, Google Colab
- **Concepts:** Data Structures and Algorithms, DBMS, OOP, REST APIs

Education

Dharmsinh Desai University

Bachelor of Technology, Information Technology — CPI: 8.52

2023 – Present

P. P. Savani Vidhyabhavan

Higher Secondary Education (GHSEB) — 84.76%

2023

Certificates

- AWS Academy Cloud Foundations
- AWS Academy Machine Learning
- Python (Basic)
- React (Basic)
- Problem Solving (Intermediate)
- DUHacks 5.0 Hackdathon Participation

Relevant Coursework

- Database Management Systems, Object-Oriented Programming
- Machine Learning, Cloud Computing (AWS)

Achievements

- Solved **1100+ problems on LeetCode** with a rating of **1636**.
- Solved **200+ problems on TakeUForward**.
- Secured **ACPC Merit Rank 912** in Gujarat engineering admissions.
